

EVERYTHING OLD IS NEW AGAIN!

In the last little while I've said this phrase many times! Yes! In fashion...like the "train case" our Moms used to carry their make up in! Or Kitchen appliances like the Mix Master – in the retro Turquoise colour....

But I'm talking about interiors....Remember the 70's....gold carpet/dark wood cabinets/geometric fabrics...That's what I'm seeing in some of the trends. A return to yesterday! Just updated and restyled.

The colours/designs are really *never* the same –they come back in different shades/tones...that's what keeps our economy moving. "Each time history repeats itself, the price goes up." — **Author Unknown**

Carpeting – remember the shag of the 70's. Now it's back – Mongolian Lamb....but in white instead of the gold and avocado.

Window coverings – what was the first window covering you remember growing up Patty? The large venetian blinds with the tapes? Back now...with wood and coloured tapes.

Drapery is back....without the patterns of the 60's....but the casement fabrics are huge. Texture. And sheers....beautiful lined sheers...Take a gorgeous sheer and line it with a coloured backing. Not the traditional drapery that Mom had...

Mirrors – remember the crackled glass mirrored tile of yesteryear? Leap ahead to glass tiles/mirrored furniture...to give the room that sparkle.

Lamps – the curvy images of the 60's.

Take some the **furniture designs** for exampleexposed wooden legs instead of skirtssleeker designs.

Button tufting – nail head detail!

Let's talk **upholstery**. Is there a piece that you'd like to re-purpose!!! Or bring that antique into the now!
